SASA

*L'azienda **SASA** nasce negli anni '60 come laboratorio artigianale di sedute d'arredamento per la collettività. La costante passione nella lavorazione del legno e la maturata esperienza, acquisita da quasi mezzo secolo di storia, hanno permesso un elevato riconoscimento a livello internazionale. La nostra produzione di sedute d'arredamento per collettività e contract si rivolge ad un mercato molto selettivo e sempre più esigente, in termini di funzionalità, bellezza estetica e stabilità, caratteristiche specifiche che il mercato stesso riconosce ai prodotti **SASA**.*

*Una grande realtà produttiva al servizio del cliente, ma anche una grande attenzione alle problematiche importanti di tutti i giorni, ambientali innanzitutto. Infatti utilizziamo per la nostra produzione solo legno nobile, proveniente da foreste europee a taglio controllato, selezionato e di ottima qualità. Per assicurare i migliori standard qualitativi, l'intero processo produttivo si svolge all'interno dell'azienda. Arriva in azienda tavolame fresco che viene fatto essiccare in modo naturale al proprio interno, perché ricerchiamo la perfezione sin dalle prime fasi di lavorazione. Ritenuto raggiunto lo stadio ottimale di umidità si passa alla lavorazione, dove il segantino, una volta controllate venature, nodi e curvatura, disegna le sagome sul legno. Tradizioni passate ma sempre presenti che permettono di raggiungere quella qualità richiesta dal cliente e che contraddistingue i prodotti **SASA**. Un occhio alla tradizione, ma nello stesso tempo un occhio alla tecnologia. Uffici di progettazione e designer specializzati disegnano i modelli **SASA** in esclusiva, sulla base di un ricercato equilibrio tra creatività e un ascolto attento, quasi religioso, dei bisogni espressi e inespressi del mercato. Dove mercato, per noi, vuol dire persone, stili di vita, ma anche passione e tradizione che l'hanno sempre accompagnato. Da questo equilibrio nascono i prodotti **SASA**.*

Per assicurare ulteriore certezza alla nostra clientela sui nostri prodotti, ci affidiamo alla CATAS. Il maggiore istituto italiano di ricerca e sviluppo per prove del settore legno-arredo. Certificazione CATAS rappresenta per noi il riconoscimento del nostro impegno verso il cliente, il nostro patto di fiducia nei suoi confronti, che coinvolge ogni aspetto della nostra attività, dalla produzione passando per la puntualità di consegna (avendo sempre disponibili a magazzino più di 20.000 sedute) fino ad arrivare all'assistenza post-vendita.

Tutto questo perché la vostra qualità è anche la nostra.

***SASA** was founded in the Sixties as a craft manufacturer of community seating. Our constant commitment to quality woodworking and our vast experience, acquired in almost fifty years' work, have earned us a fine international reputation. Our production of elegant seating for community and contract use targets a very discerning and increasingly demanding market in terms of functionality, aesthetics and stability - specific characteristics which the market finds in **SASA** products.*

***SASA** was founded in the Sixties as a craft manufacturer of community seating. Our constant commitment to quality woodworking and our vast experience, acquired in almost fifty years' work, have earned us a fine international reputation. Our production of elegant seating for community and contract use targets a very discerning and increasingly demanding market in terms of functionality, aesthetics and stability - specific characteristics which the market finds in **SASA** products.*

A leading, customer service-driven manufacturer that also pays great attention to major topical concerns, especially those concerning the environment. In fact we use only noble wood for our products, sourced from selected, top-quality, sustainably managed European forests. To ensure the highest quality standards, we perform the entire production process within our factory. We receive fresh timber which is then dried naturally because our pursuit of perfection starts from the very first stages of production.

*Once the wood has reached optimum humidity it is sent to the sawmill where a sawyer will check its grain and any knots or bending before drawing on the wood the shape to be cut. Traditions from the past that are still used today to give our products the hallmark **SASA** quality our customers have come to expect. We place importance on tradition and, at the same time, on technology. A design department and expert designers produce **SASA** exclusive styles, which exude superior creativity and attentiveness to the market's expressed and hidden needs. To us, the market means people and lifestyles as well as the passion and tradition that have always been part of it. **SASA** products are the fruits of this delicate balance.*

We turned to CATAS - the leading Italian testing and R&D institute in the wood and furniture field - to ensure our customers can be totally convinced of our products' quality. To us, CATAS certification is the reward for our commitment to our customers, the bond of trust that affects every aspect of our work, from production to excellent delivery times (we always have at least 20,000 seating elements in stock) and after-sales service.

And all this because your quality is our quality.

La société **SASA** est née dans les années soixante comme atelier artisanal de sièges pour collectivités. La passion constante dans le travail du bois et l'expérience accumulée, acquise en presque un demi-siècle d'histoire, lui ont valu d'être largement appréciée sur le plan international. Notre production de sièges pour les collectivités et les gros marchés s'adresse à une clientèle très sélective et de plus en plus exigeante, en termes de fonctionnalité, esthétique et stabilité, caractéristiques spécifiques que le marché lui-même reconnaît aux produits **SASA**.

Une grande réalité productive au service du client mais aussi une grande attention aux problèmes importants de tous les jours, à commencer par l'environnement. Nous utilisons en effet pour notre production seulement du bois noble, provenant de forêts européennes à abattage contrôlé, sélectionné et d'excellente qualité. Pour assurer les meilleurs standards qualitatifs, tout le processus de production se déroule au sein de l'entreprise. Nous nous approvisionnons directement en bois frais que nous faisons sécher de manière naturelle car nous recherchons la perfection dès les premières phases du façonnage. Quand le bois a atteint le degré d'humidité idéal, nous passons au façonnage, confié au "scieur" qui après en avoir contrôlé les veines, les nœuds et les courbes, dessine les formes sur le bois. Il s'agit de traditions héritées du passé mais que nous n'avons jamais abandonnées car elles nous permettent d'atteindre la qualité demandée par le client et qui caractérise les produits **SASA**. Un œil pour la tradition mais aussi un œil pour la technologie. Des bureaux d'études et des designers spécialisés dessinent les modèles **SASA** en exclusivité, sur la base d'un équilibre raffiné entre créativité et une écoute attentive, presque religieuse, des besoins exprimés et inexprimés du marché. Et le marché, pour nous, signifie avant tout des personnes, des styles de vie mais aussi la passion et la tradition qui l'ont toujours accompagné. C'est cet équilibre qui préside à la naissance des produits **SASA**. Pour donner à notre clientèle encore plus de garanties possibles sur nos produits, nous faisons appel au CATAS, le plus grand institut italien de recherche et de développement pour les essais dans le secteur du bois et des meubles. La certification CATAS représente pour nous la reconnaissance de notre engagement à l'égard de nos clients, qui implique tous les aspects de notre activité, de la production au service après-vente, en passant par la ponctualité des livraisons (ayant toujours 20 000 sièges disponibles en stock).

Tout cela parce que votre souci de qualité est aussi le nôtre.

*Die Firma **SASA** entstand in den 60er-Jahren als handwerklicher Betrieb für die Erzeugung von Sitzmöbeln für kollektive Räume. Sorgfalt und Hingabe bei der Holzverarbeitung und die in fast einem halben Jahrhundert gesammelte Erfahrung verschafften uns Anerkennung auch auf internationaler Ebene. Unsere Produktion von Sitzmöbeln für den Gemeinschafts- und Objektbereich wendet sich an einen sehr selektiven Markt mit höchsten Ansprüchen in Bezug auf Funktionalität, attraktive Optik und Stabilität, Eigenschaften, die unsere Kunden bei **SASA** Produkten stets zu schätzen wissen.*

Eine große Produktion im Dienste unserer Kunden, aber auch große Aufmerksamkeit für die wichtigen Themen des Alltags, vor allem in Bezug auf Umwelt und ihren Schutz. So werden bei uns nur Edelhölzer aus europäischen Wäldern aus kontrollierter Fällung verarbeitet, sorgfältig ausgewählt und von hochwertiger Qualität.

*Um einen höchsten Qualitätsstandard garantieren zu können, erfolgt der gesamte Produktionsprozess betriebsintern. Das Holz wird in frisch geschnittenen Brettern angeliefert und auf natürliche Weise getrocknet, denn Perfektion beginnt bei uns am Anfang. Ist der optimale Trocknungsgrad erreicht, folgt die Verarbeitung, bei der nach Kontrolle der Maserung, Knoten und Wölbungen, der Modellbauer die Formen auf das Holz zeichnet. Eine alte, aber immer noch lebendige Tradition ermöglicht es, die vom Kunden verlangte Qualität zu erreichen, durch die sich **SASA** Produkte auszeichnen. Tradition ist wichtig, aber ebenso wichtig ist Technologie. So entstehen **SASA** Modelle im Konstruktionsbüro, exklusiv entworfen von qualifizierten Designern, immer auf Basis der Ausgewogenheit zwischen Kreativität und ausgesprochenen und nicht ausgesprochenen Bedürfnissen des Marktes, die einfühlsam und fast andächtig aufgespürt werden. Wobei der Markt für uns Menschen sind, Lebensstile, aber auch Leidenschaft und Tradition, die sie stets begleiten. **SASA** Produkte entstehen aus dieser Harmonie. Um unseren Kunden eine weitere Sicherheit in Bezug auf unsere Produkte zu geben, wenden wir uns an CATAS, die bedeutendste italienische Forschungs- und Prüfanstalt im Holz- und Einrichtungsbereich. Zertifikate von CATAS sind die Anerkennung für unseren kundenorientierten Einsatz, unser Pakt des Vertrauens mit dem Kunden, der in unserem Betrieb immer präsent ist, von der Produktion bis zur pünktlichen Lieferung (wir haben stets mehr als 20.000 Modelle auf Lager) und Betreuung nach dem Verkauf.*

Denn Ihre Qualität ist auch unsere Qualität.

Компания **SASA** возникла в 60-е годы как небольшая мастерская по изготовлению стульев для общественных мест. Неизменное увлечение своим делом и опыт, накопленный за почти полвека труда, обеспечили фирме высокое международное признание. Наша продукция в области стульев для офисов и кабинетов руководителей предназначена для избранного рынка и взыскательных потребителей, которые предъявляют постоянно растущие требования к функциональности, эстетике и устойчивости. Именно эти характеристики и отличают изделия **SASA**.

Наша крупная производственная компания не только обслуживает клиента, но и проявляет большое внимание к важнейшим проблемам нашего времени, прежде всего к экологии. В качестве сырья мы используем только благородные породы дерева из европейских лесов, эти материалы получены при контролируемой вырубке, отобраны и обладают высоким качеством. Для обеспечения наилучшего качественного стандарта весь производственный процесс организован на нашей фирме. К нам поступают свежие пиломатериалы, которые проходят у нас сушку естественным способом, так как мы стараемся достичь совершенства уже с первых фаз обработки. Когда пиломатериалы достигают оптимальной стадии сушки, они передаются в цех. Там пильщик проверяет отсутствие прожилков, сучков и деформации, а затем размечает детали на дереве. Это старинные традиции, применение которых позволяет достичь качества, нужного клиенту и являющегося отличительным признаком продукции **SASA**. Однако традиции не мешают использовать достижения новейших технологий. Эксклюзивные модели **SASA** создаются в проектных бюро квалифицированными дизайнерами на основе тщательно выверенного баланса между креативностью и внимательным, почти благоговейным, следованием за явными и неявными потребностями рынка. Рынок означает для нас люди, стили жизни, а также эмоции и традиции, сопровождающие их. Из этого равновесия и рождаются изделия **SASA**.

Для дополнительной гарантии нашей продукции мы сотрудничаем с CATAS. Это крупнейший итальянский научно-исследовательский институт в области испытаний деревянной мебели. Сертификат CATAS подтверждает наши обязательства перед клиентом, наш договор с ним на основе доверия, которое пронизывает все стороны нашей деятельности: производство, пунктуальность поставок (поскольку мы всегда имеем на складе свыше 20.000 стульев), послепродажный сервис.

то потому, что ваше качество является и нашим качеством тоже.
