Every detail in a reception area tells a story — of identity, creativity and care. With the new Collection Box, we offer a palette that goes beyond design to capture the essence of our craft and heritage. Inspired by the roots of our factory, the colours reflect the world of Ton: the deep blues of uniforms, the brick reds of historic houses, the earthy browns and greens of trees and wood, and the soft greys and whites of rising steam during the bending process. This expanded mix-and-match potential allows for endless combinations, elevating iconic pieces such as the Dowel two-seater, Logs coat hook and Chair N^o 30. Paired with premium materials — wool, recycled wool, high performance polyester and leather — and enhanced with five new oil finishes for tables, the Collection Box transforms reception areas into curated works of art. It is where tradition meets innovation and creativity meets purpose, ensuring your reception makes a statement that lingers long after the first impression.
