TON FOR PUBLIC SPACES

Ton

Public spaces are places where people meet, work and spend their leisure time. Whether it's schools, offices, libraries, cultural centres or retirement homes, the furniture in these places should be comfortable, durable and timeless. Because good things should last — and serve as long as possible, without unnecessary compromises.

Furniture manufacturing in Bystřice pod Hostýnem has a tradition spanning 160 years. Today at TON, we build upon this history and create furniture that can withstand daily use and remain reliable even after years. Our wood benders combine proven methods with precise craftsmanship to ensure each piece endures where needed — in school canteens, government offices, meeting rooms and public halls.

Investment in public space should be smart — properly selected furniture enhances the environment whilst reducing costs for frequent repairs or replacements. Whether you're looking for stackable chairs, practical tables or timeless design, with us you'll find a combination of durability, functionality and elegance that makes sense even in budget-sensitive projects. Because quality is meant to endure. And bring joy.

IDEAL CHAIR

Function first

Design Ton R&D

Practical, universal and always reliable. The Ideal chair is designed to withstand daily use, whilst remaining affordable even for low-budget projects.

Thanks to its solid construction and durable materials, it has found its place in canteens, public buildings and community centres. Understated but stable — a chair you can rely on.

BANANA COLLECTION

Smiling comfort

Design Ton R&D

Not every chair can surprise. Banana can. Simple at first glance, but once you sit down, you'll discover comfort that embraces you. Thanks to its curved backrest, which gave the collection its playful name, Banana provides natural support and pleasant comfort — ideal for schools, offices, cultural centres and senior facilities.

Functionality, comfort and timeless appearance — these are the three key features of this chair. Available in various seat options — smooth wood, upholstery or cane mesh — it offers the possibility of customisation according to the character of the space.

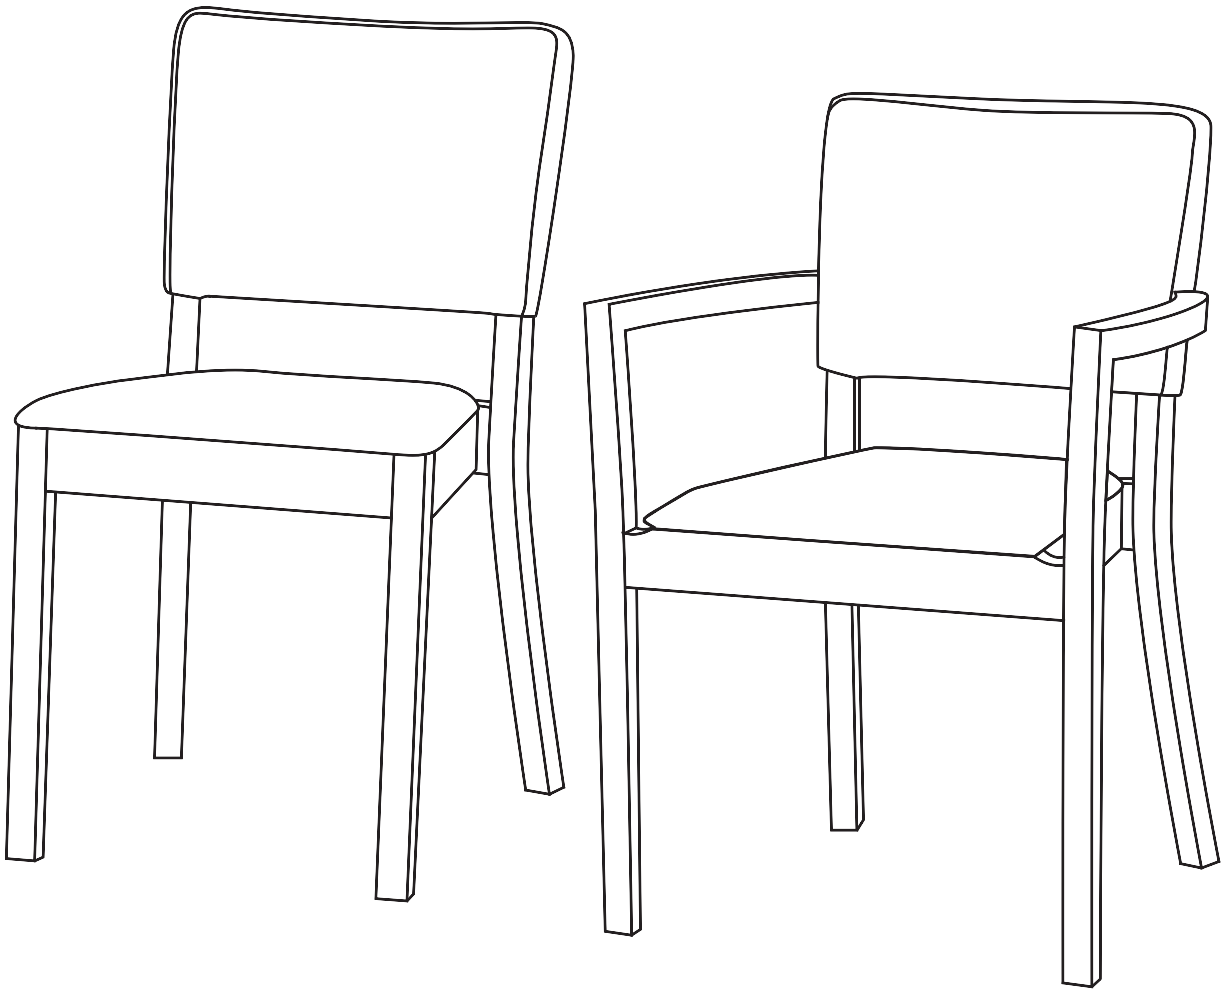

TREVISO COLLECTION

Italian stackability

Design Tom Kelley (DE/IT)

Not all chairs need to dominate the room. The Treviso chair is designed not to disturb, but to serve perfectly. Clean lines and gently curved legs add harmony to the space, whilst the upholstered seat and backrest ensure comfort even during long meetings.

The option to stack up to four pieces will be appreciated mainly by public institutions, schools, offices and cultural centres, where space needs to be used efficiently. Lightness, practicality and subtle elegance make Treviso the ideal choice for those seeking a functional and affordable solution. When you sit down, you'll understand.

BERGAMO

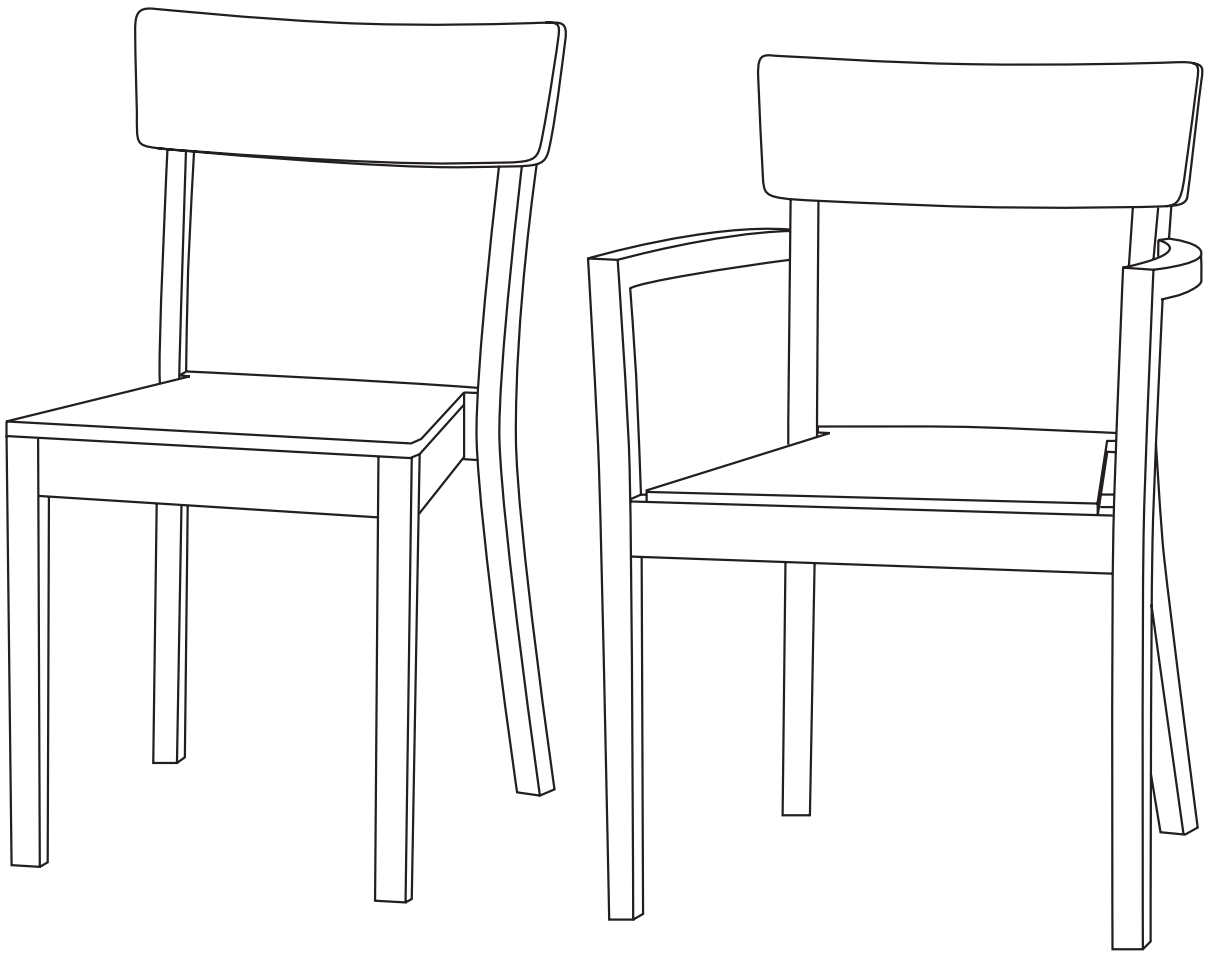

Stackable simplicity

Design Tom Kelley (DE/IT)

Durable, comfortable and always where needed. Bergamo, designed by Tom Kelley, proves that there is strength in simplicity — and elegance too. Clean lines, comfortable shape and stackability make this chair an ideal choice for schools, canteens, waiting rooms and meeting rooms.

Thanks to its ergonomic backrest and upholstery options, Bergamo provides comfort even during long sitting periods. Stacking up to ten pieces on a trolley will be appreciated in places where flexibility and space saving are needed. A wide range of colours and finishes allows the chair to be adapted to any interior, from traditional to modern.

Bergamo offers a wide palette of colour finishes and upholstery options, so it adapts to any interior. Whether you're looking for subtle classic or a bold colour accent, this chair will give you exactly what you need — timeless design that never gets old.

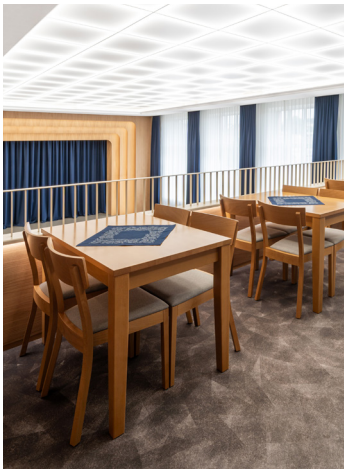

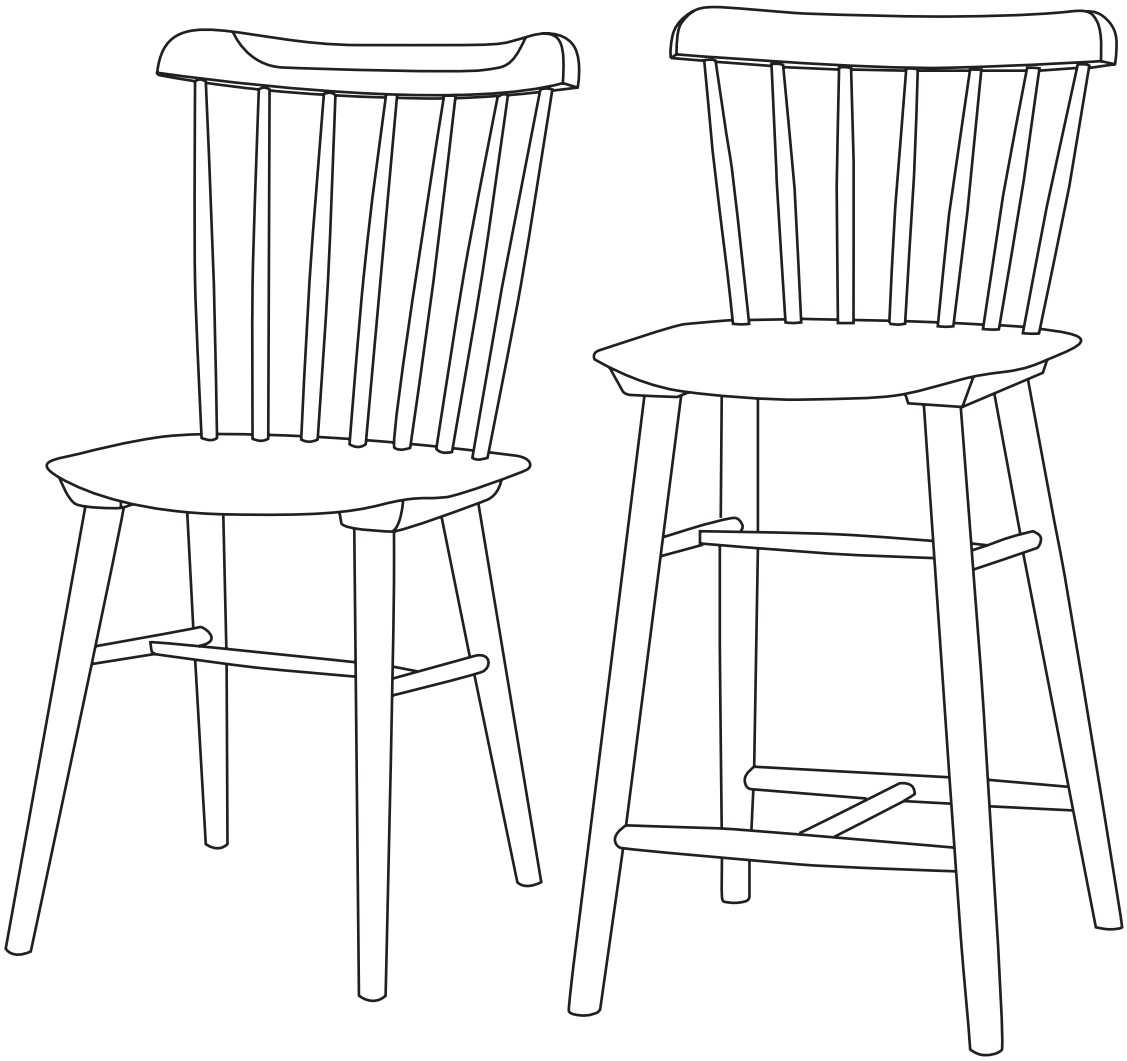

IRONICA

Ironic icon

Design Ton R&D

A classic that never gets old. A chair that easily adapts to any space. Ironica combines retro elements with modern aesthetics and, thanks to its light lines and careful craftsmanship, works perfectly in canteens, cultural centres and cafés.

Available in a wide range of colours and finishes, so it easily harmonises with any interior — from traditional to modern. The only thing that changes is how you enjoy it.

IN COFFEE WE TRUST

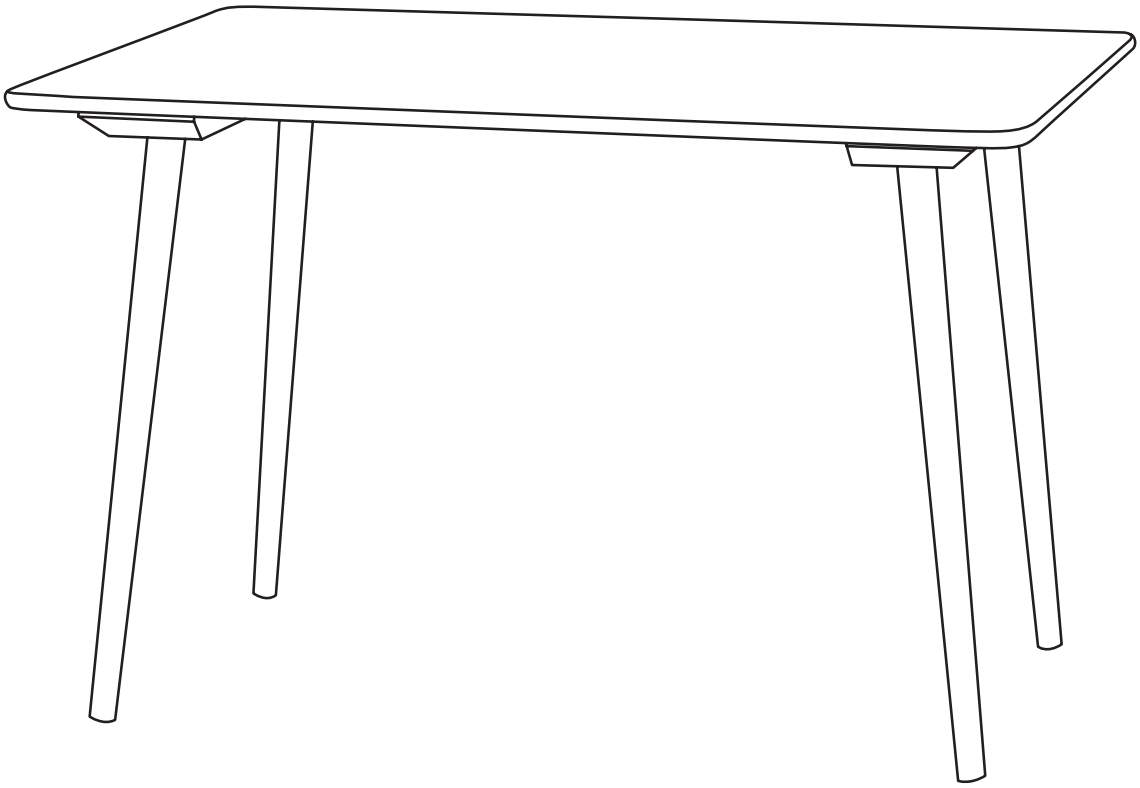

IRONICA TABLE

Ironic icon

Design Tom Kelley (DE/IT)

Durable, stable and with timeless design. The Ironica table brings the purity of Scandinavian style, but carries the Czech tradition of craftsmanship. Thanks to its solid construction and thoughtful details, it's a great choice for school canteens, community spaces and offices.

Available in multiple sizes and finishes, it easily harmonises with environments where a combination of functionality and aesthetics is needed. Whether you prefer natural wood or rich pigment, Ironica always fits in — and stands out at the same time.

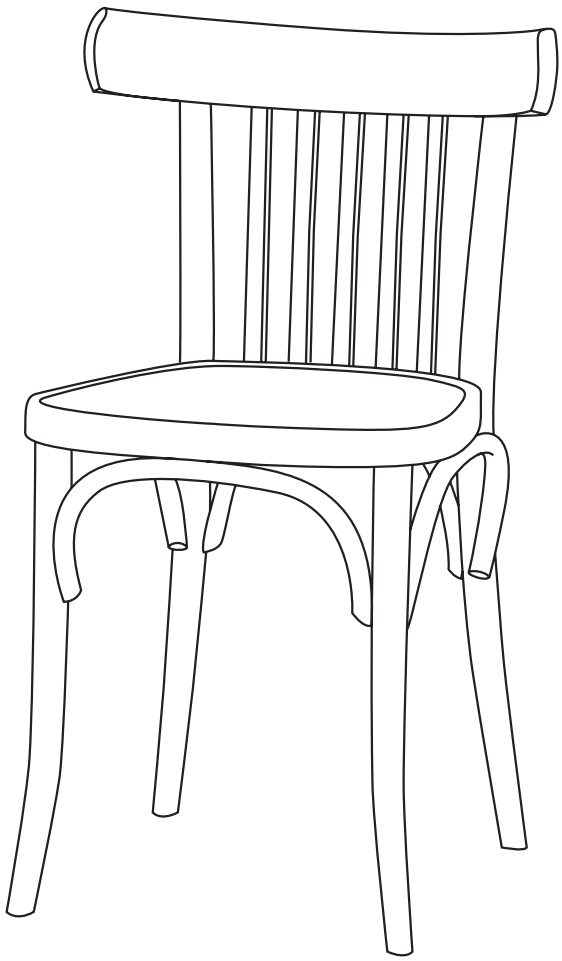

CHAIR 763

Traditional comfort

Design Ton R&D

Chair 763 is proof that traditional craftsmanship and functional design go hand in hand. The elegantly bent backrest, which smoothly transitions into the legs, is not just an aesthetic element — it also ensures strength, stability and comfort. The precise manual bending of wood, which we have been perfecting for years in Bystřice pod Hostýnem, makes this chair a timeless piece of furniture that easily fits into any space.

Thanks to its durable construction and comfortable seat, 763 is a popular choice for restaurants, cafés, cultural centres and other commercial spaces where chairs face high demands. Light but solid, elegant but practical — a chair that adapts to space and daily use without losing its character.

PUNTON COLLECTION

Catches attention

Design Tom Kelley (DE/IT)

Timeless simplicity, precise craftsmanship and perfectly balanced proportions. The Punton collection brings harmony of circular lines in the form of chairs, bar stools and sofas, designed to easily integrate into public and commercial spaces.

The common element of the entire collection is a full circular seat and finely shaped legs that ensure stability, strength and longevity. Thanks to careful bending of solid wood, Punton maintains lightness whilst resisting daily use in restaurants, cafés, schools or cultural centres.

The Punton chair brings comfort in a simple design, ideal for dining and working spaces. The bar stool adds airiness and elegance without losing functionality. And the Punton sofa? It's a great combination of aesthetics and comfort – a distinctive design element that naturally fits into any interior. Thanks to a wide range of finishes and upholstery, the Punton collection can be easily adapted to a specific space – from classic wooden design to fully upholstered versions that add comfort.

BISTRO HALA

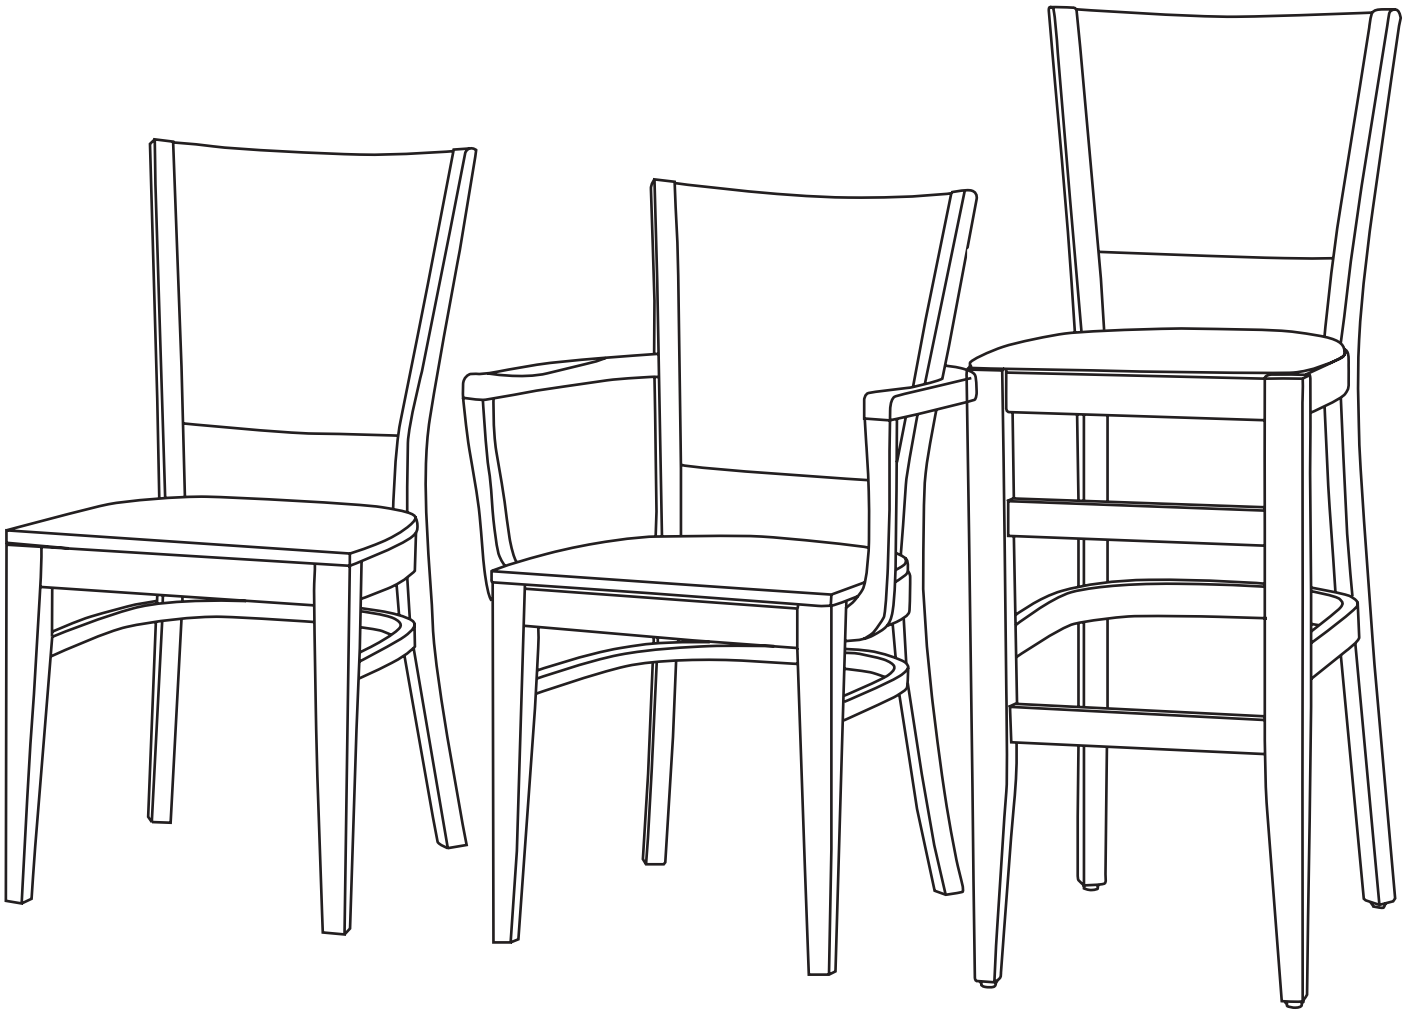

NORMA COLLECTION

Practical elegance

Design Ton R&D

In public spaces, it's important for furniture to be practical, durable and easy to maintain. Norma meets all these requirements and adds timeless design that suits school canteens, offices, cultural centres or retirement homes.

Thanks to its solid wooden construction, it withstands daily use, whilst careful craftsmanship ensures comfort and longevity. Additionally, Norma offers a footrest strip that increases durability in demanding environments, and the option of engraving, which allows customisation of the chair to a specific location or institution.

CHAIR SANTIAGO

Comfort without compromises

Design René Šulc (CZ)

The Santiago chair is designed to provide maximum comfort even during long sitting periods. Its ergonomically shaped backrest and wide seat ensure natural back support, whilst the solid construction guarantees stability and longevity.

Thanks to its durability and timeless appearance, it finds application in retirement homes, public buildings, healthcare facilities and cultural centres — in short, wherever there is a need for a chair that combines comfort, practicality and longevity. It is standardly equipped with armrests that facilitate standing up, and for even greater comfort, an upholstered version is also available, adding softness and a pleasant feeling to sitting. The chair is additionally stackable in pairs, which facilitates handling and storage.

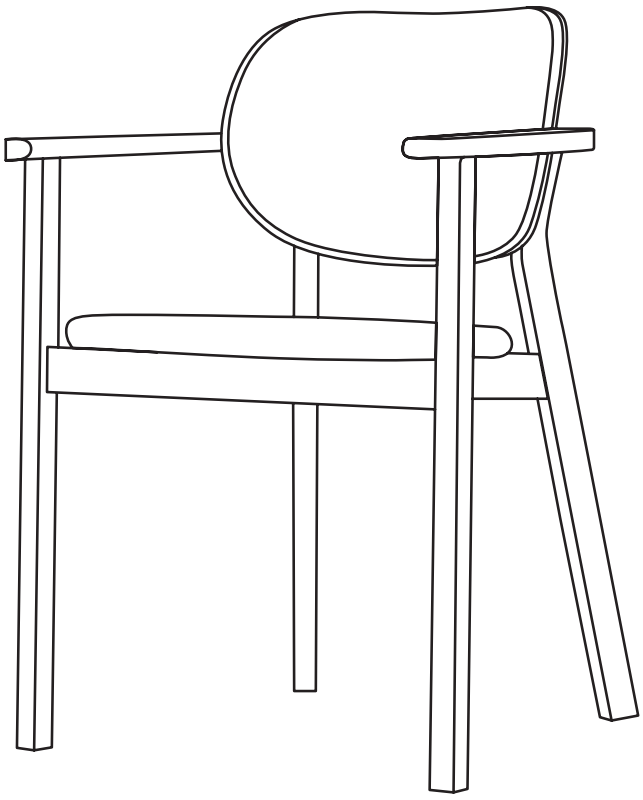

TABLE SANTIAGO

Durable and timeless

Design René Šulc (CZ)

Functional, durable and timeless. The Santiago dining table was designed to withstand daily use, whilst appearing airy and elegant. The solid wooden construction ensures stability, whilst clean lines and thoughtful proportions allow easy integration into various interiors — from school canteens and cafeterias to retirement homes or public dining halls.

Available in multiple size variants and finishes, Santiago easily fits into smaller and larger spaces. Thanks to its durable construction and carefully finished surface, it can handle heavy loads in daily use.

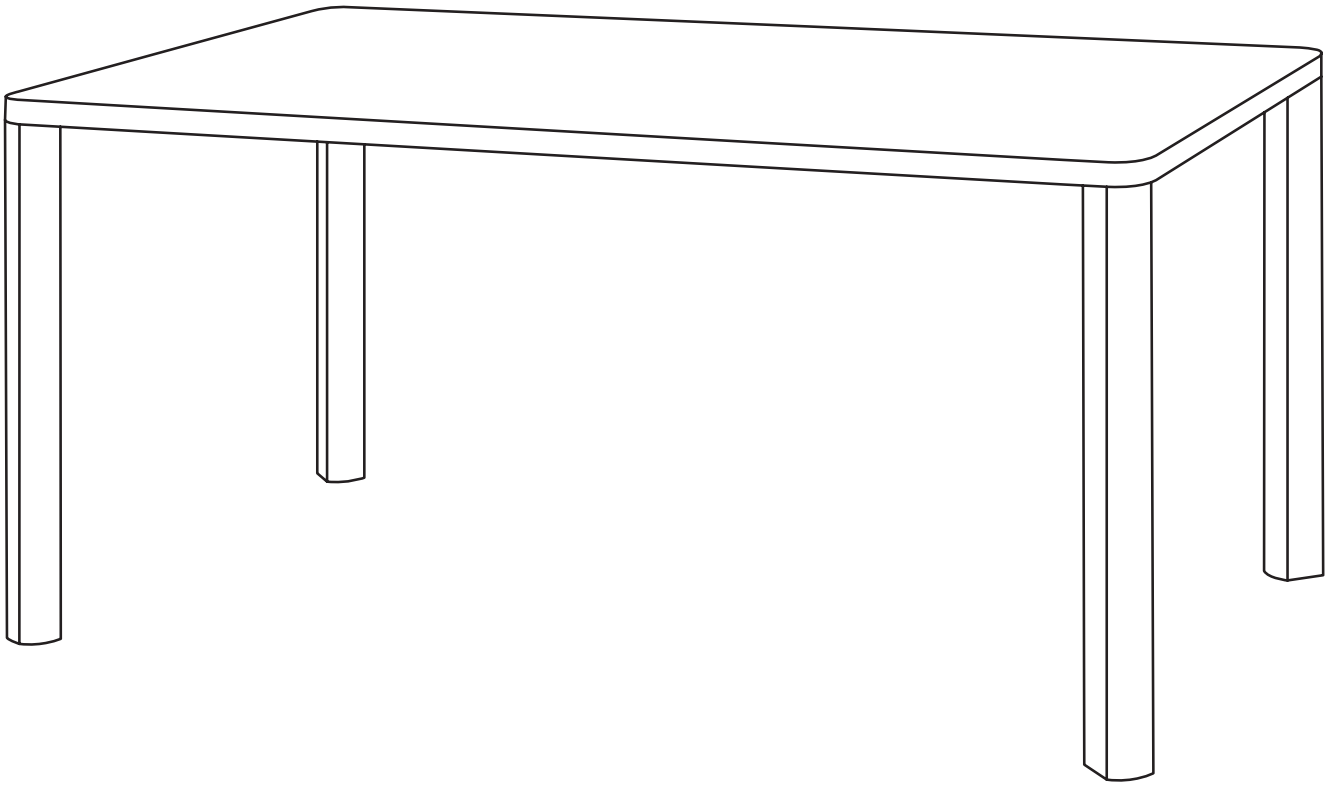

TABLE UMBRIA

Durable over time

Design Ton R&D

Every space needs a solid point that can be relied upon. The Umbria table was designed with emphasis on stability, durability and precise craftsmanship, thanks to which it can handle even the demanding environment of public institutions, schools or offices.
The honest wooden construction with more massive legs ensures not only longevity, but also comfort in daily use. The durable finish and testing for contract environments make Umbria an ideal choice for places where people meet — meeting rooms, offices, social halls or school canteens.

Whether serving for decision-making, discussions or daily dining, Umbria is more than just a table. It's a reliable partner that lasts and never disappoints.

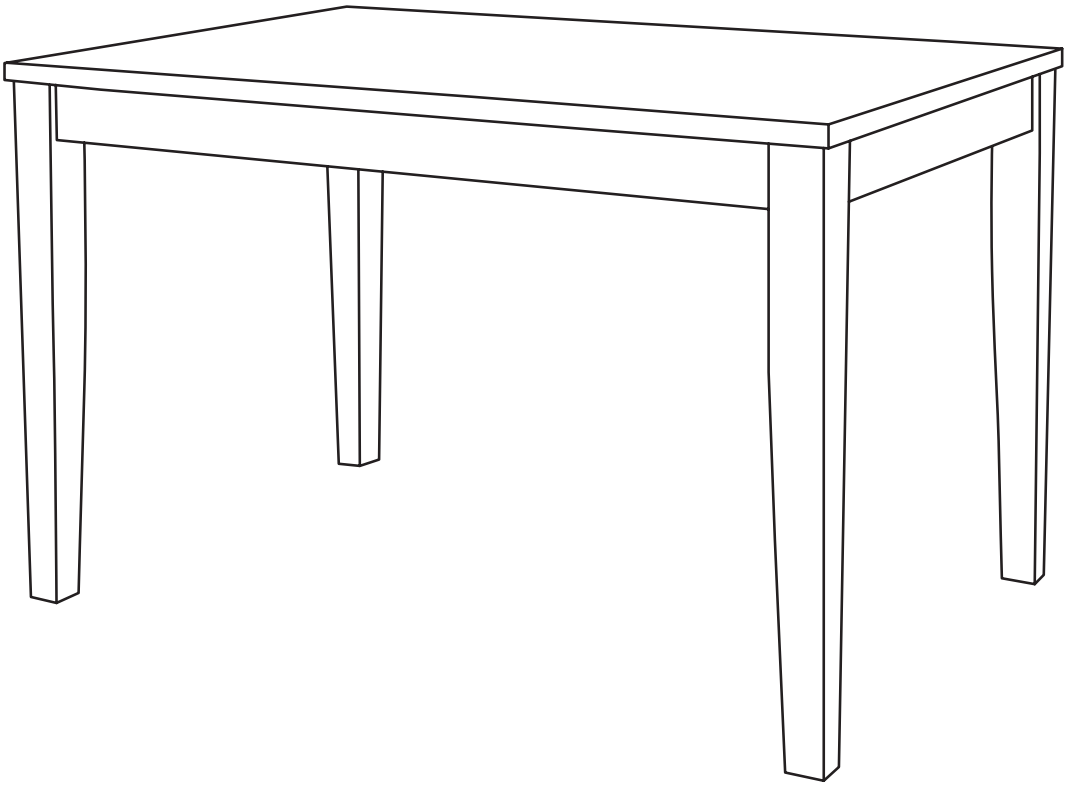

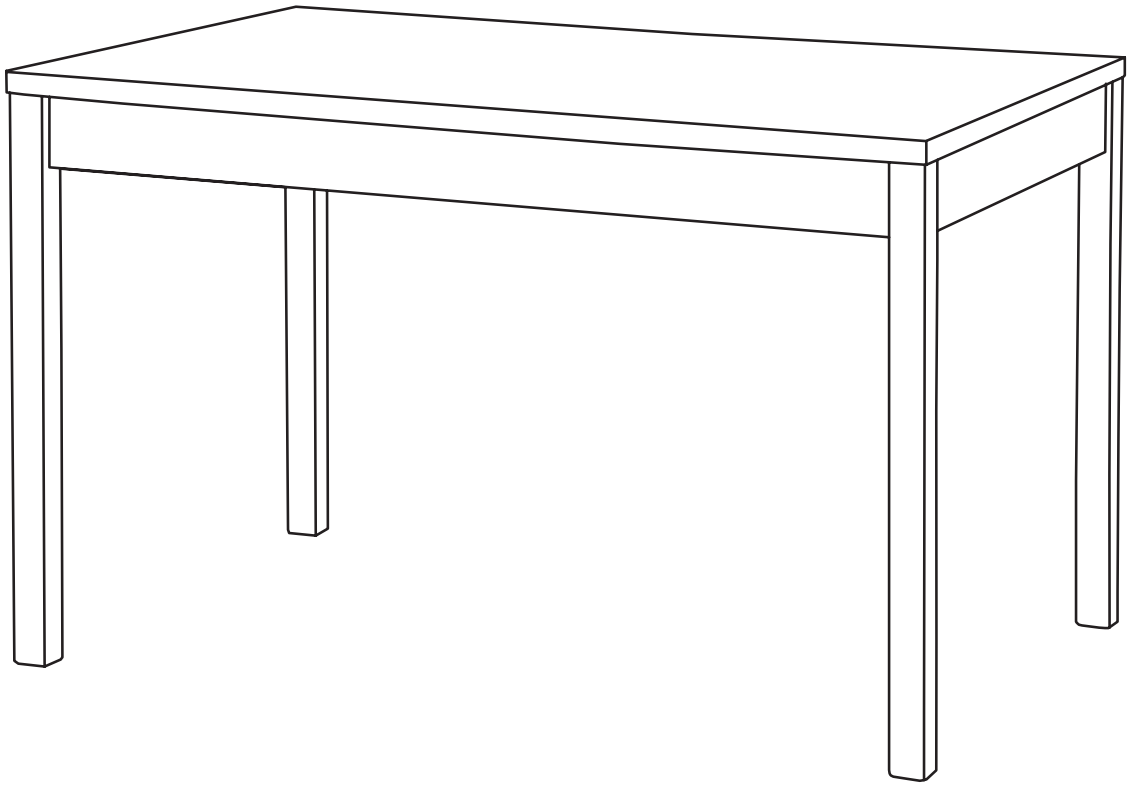

TABLE LIGURIA

Flexibility without limits

Design Ton R&D

When Italian design meets precise craftsmanship, a table is created that becomes a natural part of any space. The Liguria table combines elegance, stability and longevity, whether in offices, cultural centres, schools or canteens.

Its clean lines, attention to detail and quality materials ensure it will withstand daily use for generations. Thanks to the extendable version, the table surface can be easily enlarged, adapting to the needs of various spaces — from small meeting rooms to larger halls and community centres. Simplicity that adapts to every situation. A table that holds both space and people together.

ZÁLOŽNA

TABLES
EASY MIX & FIX

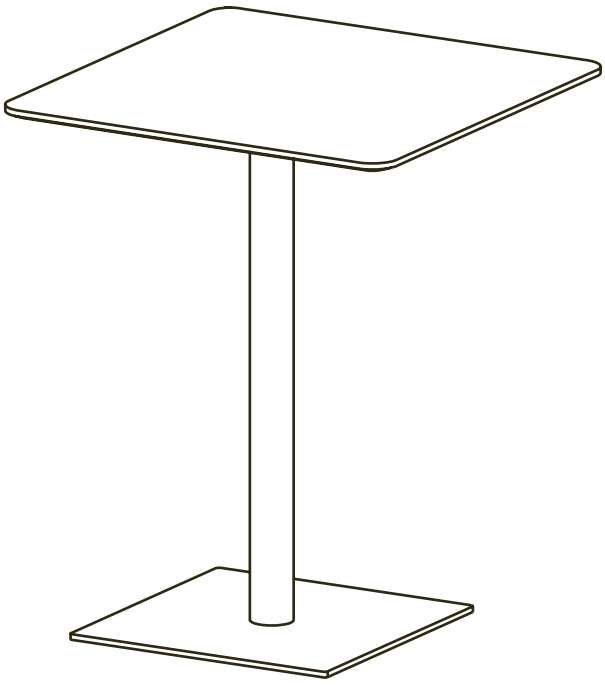

Modular. Flexible. Practical.

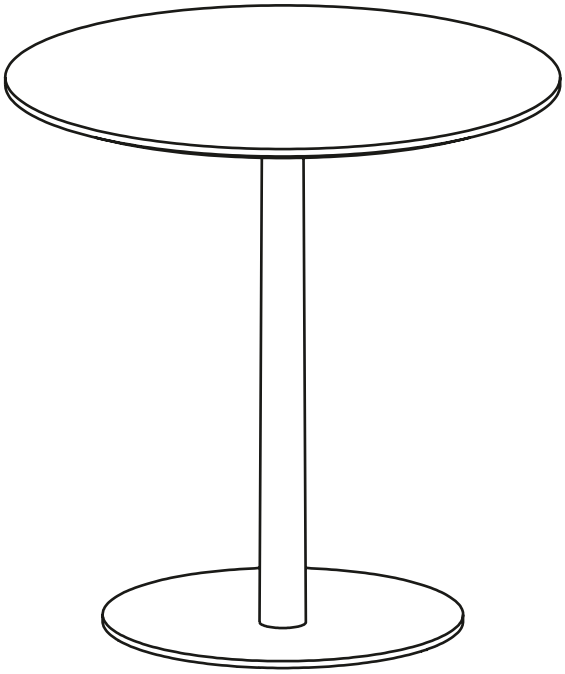

Design
Ton R&D

Every environment has different needs — Easy Mix & Fix is the solution for all. This modular table system, designed for gastronomy, offices and public spaces, allows easy adaptation of dimensions, shapes and materials to perfectly match the requirements of the interior.

Thanks to a wide range of dimensions and base variants, tables can be easily combined and adapted to the current layout of the space. Round and square tops are available in various sizes, which can be complemented with central or two-legged bases. Durable materials, such as solid wood or multiplex, ensure stability and longevity, whether in busy restaurants, cafés or public canteens.

The variability of Easy Mix & Fix allows quick adaptation to changes in operation, which is appreciated by businesses and institutions where flexibility is key. Whether you need individual tables for smaller groups, or larger sets for social events, Easy Mix & Fix will always adapt.

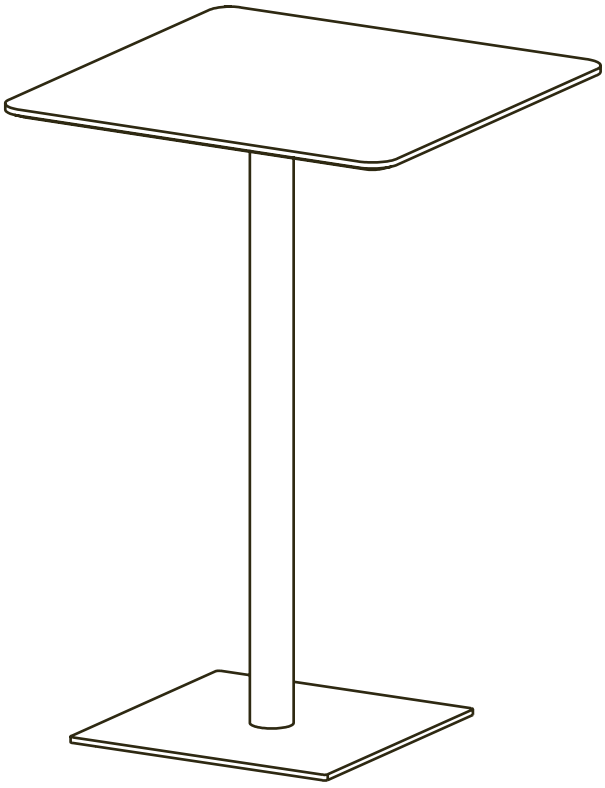

BAR TABLES
EASY MIX & FIX

Modular. Flexible. Practical.

Design
Ton R&D

Every type of space has a different dynamic, and Easy Mix & Fix in bar height knows how to respond to it. This modular system in raised design was created for operations where not only staff but also guests are on the move. It allows combining different dimensions and shapes of tops with higher bases, whilst maintaining stability, durability and clean detailing. Round and square tops are available in several sizes, and thanks to the choice between central and two-legged bases, tables can be easily adapted to a specific interior. The bar version is used in bistros, lounge areas, at events and in places where standing is a natural part of the space. The materials used — such as multiplex or solid wood — ensure longevity even with daily loads. Whether it's a quick drink, a standing meeting or free space for movement, Easy Mix & Fix can adapt without compromising on function or aesthetics.

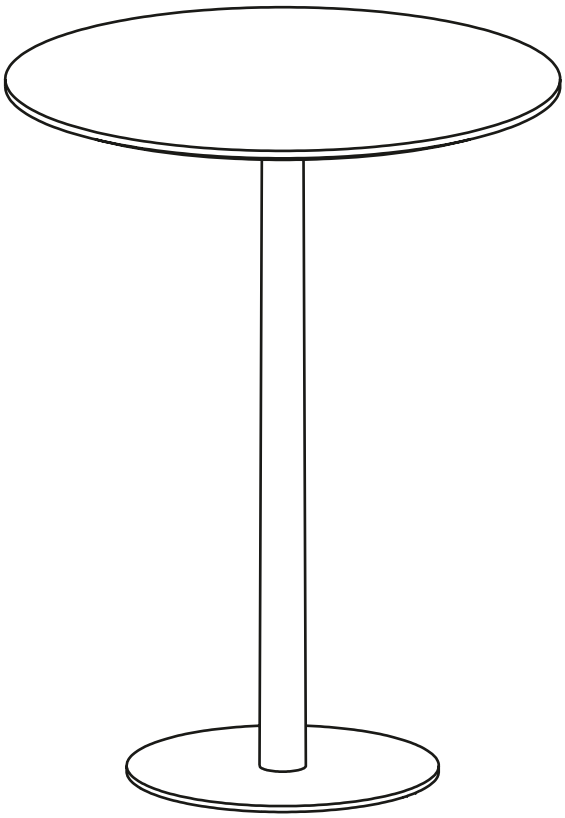

TABLE LASU

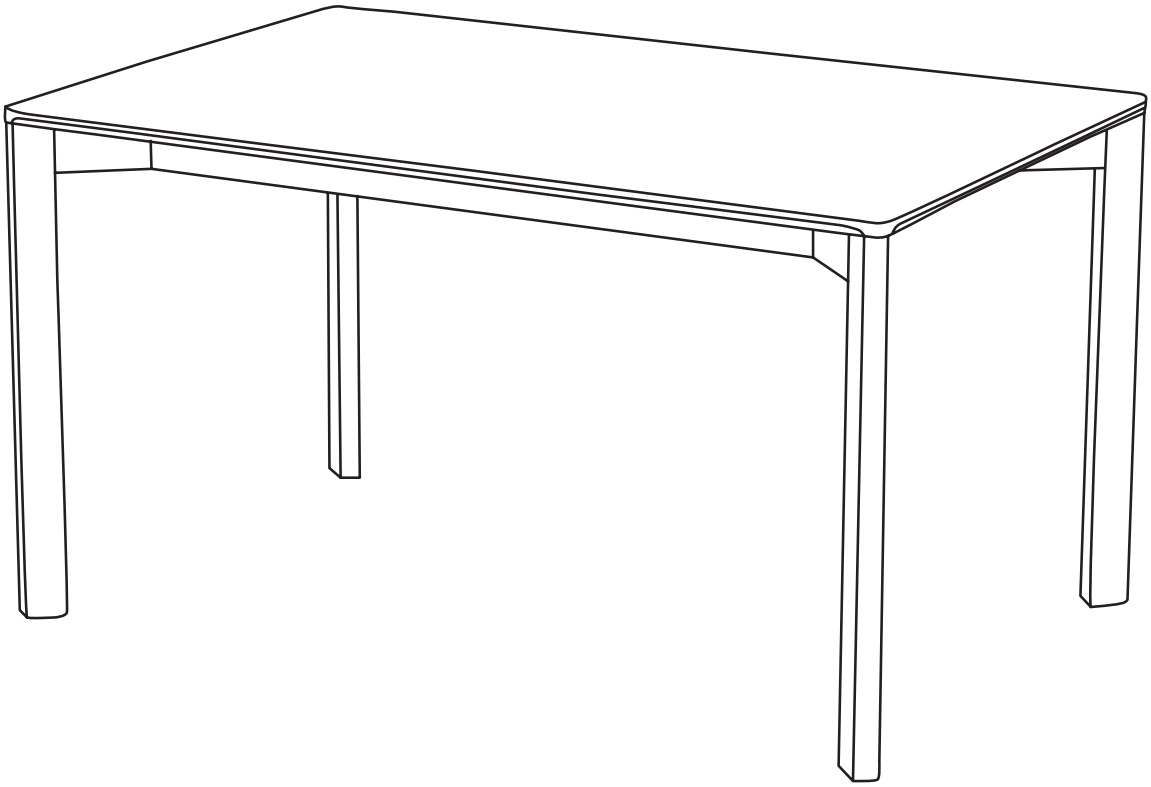

Easily stackable

Design Alexander Gufler (A/IT)

Timeless design, ingenious functionality and precise craftsmanship — all these combine in the Lasu table, designed by Alexander Gufler. Its clean lines and distinctive bevelled legs, inspired by the Merano collection, give it lightness and stability at the same time, making it perfect for gastronomic establishments, offices and public buildings.

One of the biggest benefits of Lasu is the possibility of stacking, which is less common for tables and significantly facilitates handling and storage. This practical feature will be appreciated especially by restaurants, cafés or school and conference spaces, where efficient use of space is needed.

Lasu is available in various sizes and finishes, including veneer, solid wood or rustic variant, which highlights the natural grain of the wood. Thanks to the variability of dimensions, it is suitable for both smaller spaces and as a dominant element of larger interiors.
